

Community Notice- April 28th, 2017

HALIBUT DISTRIBUTION

Halibut distribution is CANCELLED due to bad weather and poor fishing. We are continuing to make arrangements for a fresh distribution in the future. Thank you everyone for getting their designation forms in.

FIELD TRIP - Hupacasath WL 1476 – Tuesday May 2nd at 9:30am

****Call Carolina if you would like a seat on the bus 250-735-0444****

We have a new road with access to Sproat Lake on Hupacasath's Woodlot 1476. In effort to have the community familiar with this area, we would like to get members out to this spot, we would also appreciate that people share their visions and ideas on what you would like to see happen at this site.

There is still a lot of clean up from the logging that needs to be done (branches, firewood piles stumps, Danger tree assessing) so we will be discussing a budget for this, after the initial clean up there will be ongoing work such as clearing the beach from tree limbs, making trails, making camp sites etc.

We hope members are available to come out and see this beautiful area that allows Hupacasath our own access to remote and pristine area right on the lake!

Please bring proper foot wear the terrain is rugged.

Time: Tuesday May 2, 9:30 am

Please call Carolina if you would like to get a seat on our Bus, I am also available for questions and arranging a ride to the site.
