

Licence Number: XFSC 206 2018  
File Number: 2018 Hupacasath CL - Sockeye  
Valid From: 22-Jun-2018  
Expiry Date: 28-Jun-2018

This licence is issued under the authority of SECTION 4 OF THE ABORIGINAL COMMUNAL FISHING LICENCES REGULATIONS.

This licence is not intended to define an Aboriginal right to fish or its scope; however, for the fishing season, it is intended to provide a mechanism, for reasons of proper management and control of the fisheries and conservation and protection of fish, for requiring compliance with the provisions of this licence.

This licence is subject to the *Fisheries Act* and regulations thereunder, and confers the authority to fish under the following conditions: Food, Social, and Ceremonial purposes.

---

**Licence/Permit Activity Description:**

The Fishery is limited to the harvest of sockeye, coho, chum, and Chinook. All efforts and attempts shall be made to return all non-target species to the water alive and unharmed.

Subject to closures and other terms and conditions of this licence, the authority to fish under this licence will expire on June 28, 2018.

---

**Period of Activity:**

Subject to amendments to the conditions of this licence and subject to close times as may be varied by the Director-General, Pacific Region, DFO in accordance with the Fishery (General) Regulations, the Licence Holder may harvest during the periods further described in the Species, Quantity of Fish, Area(s) and Gear and the Terms and Conditions portions of this licence document. Subject to closures and other terms and conditions of this licence, the authority to fish each species set out on this licence will expire on the date specified or earlier if DFO, after consultation with the First Nation, has determined that the maximum quantity for the species has been reached. This licence is for a maximum quantity for the term of this licence, for management purposes only, and is without prejudice to maximum quantities in future years. Should the First Nation reach their maximum specified quantities and require more, DFO will enter into discussions with the First Nation on the fish species they require.

In no case shall a person fish pursuant to this Licence using power assisted gear commonly used in the commercial fishery including powered drums, blocks or live rollers.

### **Designation of Individuals**

No individual other than a designated individual may participate in the FSC Fishery.

The First Nation will designate specific members of the First Nation to engage in fishing in the FSC Fishery on their behalf by issuing a designation document to each designated Member.

In addition to designating specific members of the First Nation to engage in fishing in the FSC Fishery, the First Nation may designate individuals who are not members of the First Nation to engage in fishing by issuing a designation document to them.

Where Prior to the commencement of the FSC fishery and as may be amended during the Fishery, the First Nation designates members of the First Nation or individuals to engage in fishing in the FSC Fishery, it will provide to the DFO Conservation and Protection Supervisor a list of the names of designated members of the First Nation and other individuals, prior to the commencement of the FSC Fishery.

The First Nation will issue a designation document to each member of the First Nation or other individual that the First Nation designates to engage in fishing in the FSC Fishery. The form of the designation document issued by the First Nation will be determined by the First Nation and will serve as proof of designation and will be personal, non-transferable and bear a unique number and the name of the designated individual.

### **Designation of Vessels**

If a person designated to fish intends to use a vessel equipped with Commercial Fishing Gear to participate in the Fishery for salmon, a designated representative of the First Nation must:

(a) designate the vessel in writing and notify the DFO Conservation and Protection Detachment Supervisor at least 24 hours prior to using the vessel in the Fishery. The vessel designation certificate must set out the vessel name, VRN or DOT number, fishing times, areas, and gear authorized by this licence: and

(b) telephone or email the DFO Resource Manager before leaving a port to commence salmon fishing and provide the following information:

(i) vessel master's name

(ii) VRN or DOT number

(iii) intended fishing start date; and

Licence Number: XFSC 206 2018  
File Number: 2018 Hupacasath CL - Sockeye  
Valid From: 22-Jun-2018  
Expiry Date: 28-Jun-2018

(iv) Management Area and Subarea to be fished.

The vessel designation certificate and this licence or a copy of this licence must be carried on the vessel at all times while the vessel is being used in the Fishery or while transporting fish harvested in the Fishery. Proof of vessel designation must be presented to any Fishery Officer or Fishery Guardian by the operator of the vessel on request.

Commercial Fishing Vessels participating in the Fishery must be available for inspection prior to engaging in a commercial fishery.

Where a commercial fishing vessel is used to harvest Fish under the authority of this licence, Fish must be landed prior to the commercial fishing vessel participating in a commercial fishery opening for the same species.

A commercial fishing vessel shall not be used to fish under authority of this license for a species of fish:

- a) six (6) hours prior to that vessel being used to fish for the same species under the authority of a commercial licence;
- b) while that vessel is being used to fish for the same species under the authority of a commercial licence; or
- c) twelve (12) hours after that vessel has been used to fish for the same species under the authority of a commercial licence

### **Designation of Landing Sites:**

The landing sites for all fish caught under the authority of this licence will be the Port Fish Dock, Paper Mill Dam, and Clutesi Marina. The commercial vessel Pacific Reefer with an authorized monitor on board is also a designated landing site. Other sites may be agreed upon by the First Nations and DFO and must be set out in an amended licence. The First Nations will ensure that all Participants are aware of the location of the designated landing sites.

Landing Slips:

All salmon caught by a Participant under authority of this licence must be inspected by an Observer, fishery officer, fishery guardian or Aboriginal Fisheries Officer at a Landing site and such person shall issue the Participant a landing slip ("Landing Slip") which will specify:

- (a) the landing site;
- (b) the date and time of landing;
- (c) the Participant's name and designation number;
- (d) the number of salmon landed for each species of salmon; and
- (e) the Observer's, fishery officer's, fishery guardian's or Aboriginal Fisheries Officer's name.

All salmon caught by a Participant under authority of this licence must be transported directly to the landing site by water.

Proof of Landing:

Where a Participant has possession of fish caught under authority of this licence, the Participant must carry a Landing Slip for the fish. This condition does not apply while the Participant is fishing or transporting fish directly to a Landing site by water. The Participant shall show Landing Slips to any Observer, Fishery Officer, Fishery Guardian or Aboriginal Fishery Officer upon request.

The First Nation will maintain in a form acceptable to DFO a record setting out the following information with respect to fish caught under the authority of this licence:

- (a) tag recoveries and related information; and
- (b) Such other information as required by DFO.

This information will be collected by the First Nation and provided on a weekly basis to the DFO Resource Manager in Port Alberni (phone: 250-720-4440 and Fax 250-724-2555).
